Colleen,

Thanks for asking these questions.

The latest information I have is that sampling is on-hold. We probably would not have ESAT accept samples on the weekend (we would arrange receipt and then log them in on Monday). So I don't think overtime would be needed. Kevin M. will also be available for logging in samples and depending how many come in at one time he might do the entire set. I'll let Kevin know to contact you about this.

The sample sets (as far as we know) will be limited to smaller batches per week so I don't think it would take more than one day a week to complete the login.

Cindy

**Subject:** Fw: Dimock site support by ESAT

I just wanted to check to see if there will be the remote possibility that ESAT will be needed for sample log-in and processing over the weekend for this site? If ESAT will be needed I will have to send a request to the CO for approval prior to the weekend. I am off on Friday. I am just trying to be proactive. The overtime may not be needed but we can go ahead and make the request.

Secondly, for funding, is there any site money available for this site? If it is removal, does removal have a few dollars available. We would not need very much a few thousand should be sufficient. Figure the rate of **Ex. 4 - CBI**

**Ex. 4 - CBI**

By the way, this is the loaded rate.

This is estimating based on the max of 10 hrs each day for one person. A little more would be needed if another ESAT person is needed. I don't think you want to have **Ex. 4 - CBI** because of his rate.

Thanks!!!!!!!

**Subject:** Dimock site support

This message is to give ESAT a heads-up for a considerable number of samples that will be arriving for ESAT sample log-in support. The LB will provide some assistance/support for the Dimock site. I will ask the LB to include someone from ESAT in the discussions for handling and processing the samples. I am not certain at this time if any ESAT analytical support will be required. As soon as I am made aware, I will let ESAT know. Kevin Martin is the contact for the Sample log-in/processing. This is a high priority and highly visible site. Samples may begin to arrive before the end of the week.

Thanks!!!!!!!!!!!!
